Read the text about four restaurants. Then choose and write the letter of the restaurant which fits the best the 8 statements below. The first (0) is already given to you.

Jenni Muir sets up her computer to rate the best recipe sites on the web stars

A; *** (three stars)

This American site may not include all recipes, as claimed, but it is certainly big, with recipe ideas grouped in 23 speciality 'cookbooks'. There are recipes for soups, salads, chicken, Mexican dishes, cookies and food for kids, all posted by visitors. The site also provides a selection of recipes for diabetics. This restaurant is located the town of Witney. Artwork in the restaurant is based on the wool and blanket-making industry which is traditional to the area. The restaurant also has a conference room available to hire, which is perfect for businesses or private parties. Please speak to the manager for further details. Did you know that first recipe book was written 600 years ago?

B; **** (four stars)

It sounds like a good idea for a television series: pitch home cooks against leading restaurant and celebrity chefs and see whose dishes the audience prefers. According to the Top 10 Recipes section of this BBC website, dishes contributed by the general public often beat those of the famous professionals. For example, Steven Ballance's Chicken and Bacon Surprise recently beat dishes from Masterchef contestants. This restaurant is located in the town of Sudbury in Suffolk. The location is decorated with portraits inspired by the work of the painter Thomas Gainsborough (who was born in Sudbury in 1727), recreated in the style of contemporary artist Julian Opie.

Opie was born in London in 1958 and raised in Oxford. He graduated in 1983 from Goldsmiths, University of London, where he was taught by conceptual artist and painter Michael Craig-Martin.

C; ***** (five stars)

Authentic recipes and expert contributors are the hallmarks of this wonderful Chinese food site. Chopstix is huge in America, and American writers are featured alongside the British-Chinese authority Yan-Kit So. The ingredient information is great, and there are fascinating tips on shopping, and links to good recipes on other sites. This restaurant is situated in the Birstall retail park on junction 27 of the M62 near Leeds. If you wish to book, please use the online form below or give us a call. Chopsticks are shaped pairs of equal length sticks that have been used as the traditional utensils of China, Vietnam, Korea and Japan for thousands of years.

D; ** (two stars)

"Over 230 recipes" may not sound an impressive boast, but Vegetarian Heaven provides quality not quantity. Although the design is unstylish and the search facilities are limited, there are several tempting dishes and the many vegan options are clearly labelled. Pasta is the site's strength.

The restaurant is located in an old warehouse on the waterfront in the Christianshavn neighbourhood of central Copenhagen. Vegetarians do not eat any animals. This includes pigs, chickens, cows, sea animals, and every other animal. In addition to not consuming any animal flesh, a vegan (strict vegetarian) also doesn't eat dairy products, eggs, or any other product derived from an animal. Vegans also avoid using products that have been tested on animals or made from animal skins.

0. On this site you can compare recipes by professional cooks and amateurs. ....

1. Jenni Muir thinks this site is the best ....

2. Click here if you do not eat meat. ....

3. You can find recipes for children on this site. ....

Read the text then write the (7) missing words on the spaces.

for | over | loop | carriage | rush | operation | relatively |

Tokyo yesterday began its first women-only subway car during the morning (1) rush hour in a bid to crack down on groping, which is rampant on the Japanese capital's crowded trains. The special (2) carriage will run from 7.30am to 9.30am on the Saikyo Line, which does a (3) loop around Tokyo and is notorious for groping due to the (4) relatively long distances between stations.

A women's car has been in (5) operation since July 2002 on the Saikyo Line. A police report in February said groping on Tokyo trains had tripled (6) over the past eight years. It urged rail firms to set up more women-only cars. A number of other railway companies in Tokyo are due to start women-only cars in May on their busiest lines or on rapid trains which tend to be more crowded than local trains.

"We are going to study whether we will expand to other lines in the future," said a spokesman (7) for the East Japan Railway Co. Police said 2,201 cases of groping and more serious sexual assault took place last year on trains, with one-third of the victims high school girls.
